

Literature Orthognathic Surgery

1. Luyk, N. H., Ward-Booth, R. P.
The Stability of Le Fort I Advancement Osteotomies using Bone Plates without Bone Grafts.
J. Max-Fac. Surg. 13, 1985
2. Persson, G., Hellem, S., Nord, P. G.
Bone Plates for Stabilizing Le Fort I Osteotomies
J. Max-Fac. Surg. 14, 69, 1986
3. McDonald, W. R., Stoelinga, P. J. W., Blijdorp, P. A., Schoenaers, J.A.E.H.
Champy bone plate fixation in sagittal split osteotomies for mandibular advancement.
I. J. Adult. Orthod. Orthognat. Surg. 2, 87, 1987
4. Rubens, B. C., Stoelinga, P. J. W., Blijdorp, P. A., Schoenaers, J. H. A., Politis, C.
Skeletal stability following sagittal split osteotomy using monocortical mini plate internal fixation.
I. J. Oral maxillofac. Surg. 17, 371, 1988
5. Brown, J. S., Trotter, M., Clife, J., Ward-Booth, R. P., Williams, E. D.
The Fate of miniates in facial trauma and orthognathic Surgery: a retrospective study
British Journal of Oral and Maxillofacial Surgery 27, 306, 1989
6. Baker, Stoelinga, Blijdorp, Brouns
Long-term stability after inferior maxillary repositioning by mini plate fixation
International Journal of Oral and Maxillofacial Surgery, Volume 21, 1992
7. Farmand
The 3-D-Plating System in Maxillofacial Surgery
AAOMS 1993
8. Scheerlinck, Stoelinga, Blijdorp, Brouns, Nijs
Sagittal split advancement osteotomies stabilized with mini plates
International Journal of Oral and Maxillofacial Surgery, Volume 23, 1994
9. Eckelt et al
Clinical and radiological evaluation following surgical treatment of condylar neck fractures with lag screws.
Int.J.of OMF Surgery 1999; 27: 235-242
