IPS® Clinical Masterclass on facial gender-affirming surgery

February 19 – 20, 2026
Barcelona, Spain

In cooperation with Facialteam

 **facialteam**

Preface

Course concept

The IPS® Clinical Masterclass course in Barcelona offers an exclusive opportunity to learn the theoretical and practical clinical applications of state-of-the-art facial gender-affirming surgery with latest technologies in virtual surgical planning and custom-made solutions.

The event's small group learning environment provides ideal conditions for hands-on training and surgical guidance. Attendance is therefore limited to a maximum of eight participants.

The faculty from Facialteam are internationally recognized experts in the field of facial feminization surgery, committed to precision, predictability, and natural results. With over 40 years of combined experience, the surgeon team provides personalized treatment plans and comprehensive support throughout the entire surgical journey.

Faculty

Dr. Luis Capitán

Dr. Javier Gutiérrez
Santamaría

Dr. Jorge Masià
Gridilla
