

10th Advanced training course Expert meeting on advanced operation techniques in gynecology

Location: On-site @ IRCAD Strasbourg, France

Date: November 27 – 28, 2024

Course fee: 750 €

Scientific direction: Prof. Dr. med. Ingolf Juhasz-Böss

Welcome to the expert meeting on advanced operation techniques in gynecology!

Are you a gynecologist who has an active interest in operative gynecology and gynecologic oncology and wish to learn more about an innovative and cost-effective reusable system for bipolar vessel sealing? Then our expert meeting is the right course for you!

Includes:

- Theoretical program with explanations of the technical background of bipolar vessel sealing
- Lectures from renowned speakers
- Video session discussing selected OR cases
- Intensive hands-on training in the wet-lab facilities of the IRCAD Institute

Program:

	November 27, 2024
07:00 p.m.	Get-together and round table discussion
